

CIRCUS ORANGE

COMPANY OVERVIEW

Circus Orange are creators of grand-scale performance dreams. Our speciality is combining live performance with pyrotechnics, special effects and aerial rigging to build beautiful live-action explosive shows.

We offer a full range of performance, pyrotechnic, stunt and aerial options. From custom created spectacle and pyrotechnic events to turnkey outdoor spectacle shows. Individual performance based events to world-class fireworks, stunts, rigging and special effects. [Contact](#) us today for more information.

CUSTOM SHOWS

[SHOWS LINK](#)

We create custom site specific explosive works of art combining music, machines, live stunts, human performance, fire and fireworks to astonishing effect. These performances are site specific and always original.

We have a selection of indoor and outdoor shows ready made and specifically designed for the festival and corporate market. Individual acts are available too from solo to ensemble numbers from 2-20 minutes in length.

Disciplines include acrobatics, dance, circus, aerial, stunts and fire.

“I was blown away by your opening ceremonies performance. It was fantastic!”

-Kimberely Bain, Toronto Special Events

LARGE-SCALE SPECTACLE SHOWS

[SPECTACLE LINK](#)

One of our specialties is the creation of large-scale, outdoor, spectacle performances. These can be one of our pre-existing spectacle shows or an entirely new custom creation built just for you. Presently we have four large-scale shows that vary in content from a processional street-theatre production that revolves around an 18' high fire spewing tricycle to a vertical takeoff jet with a pyro trapeze and bungee act below. Show lengths from 20-minutes to over an hour.

“Circus Orange was truly the hit of our festival. Your show was outstanding!!”

-Ellen Townsend, National Capital Commission – P.E.I.
